EFFICACY TEST
"IL LEGGINGS" GUAM
carried out by the State University of Milano-Bicocca

A **placebo-controlled test** has confirmed the following effects on the skin when Guam Leggings are worn **6 hours a day** for **30 days**:

- **FIRMING**
- **SCULPTING**
- **TONICITY-IMPROVING**
- **ELASTICITY BOOSTING**

with positive results as a cosmetic adjuvant in the treatment of **OFP** (Oedematous Fibrosclerotic Panniculopathy).

The reduction in **thigh circumference*** achieved by volunteers who underwent the efficacy test are shown to the side.

*Reduction in thigh circumference occurs without weight loss.
